I'm a software developer inspired by prior experience in music, design and elevator mechanics so I can stay creative while solving complex coding problems and build intuitive and easy to use products.

Skills

- *Languages and frameworks:* HTML, CSS, JavaScript, jQuery, React, NodeJS, MySQL, Python, Flask, PostgreSQL
- *Management and deployment:* Git, GitHub, Trello, Heroku, MongoDB Atlas
- *Methodologies:* Responsive design, Wireframing, Accessibility, Object Oriented Programming

Relevant experience

- **General Assembly, Software Engineering Immersive Remote Student:** Full time student in the Software Engineering Immersive program that included over 520 hours of professional training over thirteen weeks.
- **Precision Elevator corp.:** worked as an elevator mechanic in New York for three years. Have done maintenance, troubleshooting, construction, installment and updating elevator software.
- **Freelance graphic design:** For a year was a freelance graphic designer. Worked in Adobe Photoshop and CorelDraw. Designed menus and lightboxes for fast-food restaurants, storefront glass for a toy store, book covers and board games.

Education

- **Bachelor Degree in Marketing:** 2013 - 2018 completed the full course of Kherson technical university, obtained qualification: Bachelor Degree, Field of study Marketing.

Interests

Music Production, Acting and Theater, Comedy Writing, Content Creation.
